

Who we are

Geography and Environment is an interdisciplinary department, housed within the Faculty of Social Science, which offers majors in **Environmental Studies** and **Geography** (Bachelors of Arts) and **Environmental Science** (Bachelors of Science). These programs are also available as minors, along with **Geographic Information Systems**.

If you would like to learn more about the programs offered in the Department of Geography and Environment, please visit the MTA webpage.

We are physically located on the 3rd floor of the Avard-Dixon Building.
